

# Rea & associates CYBERSECURITY & DATA PROTECTION

## PROTECT YOUR DATA, PROTECT YOUR BUSINESS

We are committed to providing you with the right amount of cybersecurity coverage to secure your business partner relationships while providing the tools and peace of mind needed to help you grow your businesses safely — all without having to spend an exorbitant amount of capital up front.

### WHO DO WE SERVE?

Rea & Associates is equipped to represent small- to mid-sized businesses as well as middle-market businesses that currently operate without a cybersecurity framework, readily-available expertise or budget. Our services are ideal for organizations that are looking to address cybersecurity for client requirements, compliance or security concerns.

### WHY WORK WITH US?

Rea's cyberprofessionals bring extensive experience in the areas of regulations, laws and governance frameworks. Consisting of highly regarded professionals known for their technical expertise, high regulatory standards and demonstrated organizational integrity, our team has earned the following licenses & certifications:

- Certified Public Accountant (CPA)
- Certified Information Systems Auditor (CISA)
- Certified Information Systems Security Professional (CISSP)
- Certified in Risk and Information Systems Control (CRISC)
- Government security clearances

### HOW CAN WE HELP YOU?

Organizations vary broadly in their budget levels when it comes to cybersecurity. We believe that cybersecurity compliance efforts should be risk-based and adequate to ensure that you are taking necessary precautions to protect the sensitive data your organization utilizes on a daily basis. Our approach requires us to develop a deeper understanding of your organization's habits, complexity, prior efforts, and general management expectations.
